

- Hartmann hot-blast stove, 102
Harvey hot-blast stove, 102
Heads, relation between pressure and velocity, 32
 table of velocity, 163
velocity required, 31
Heat capacity and calorific intensity, 348
 and calorific intensity
 curves, 36S-393
 of various gases, 365
Heat loss from exterior walls, 270
transfer in checkerwork, 208
Heat treating furnaces, temperature of waste gases in, 79
 vertical, 123
Hoffman furnaces, 116
Horizontal tempering furnaces, 126
Hot-blast heaters, iron tube, 108
Hot-blast stoves, 97, 300
 brick and pass volume, 308
 combustion chamber for, 102
 combustion of blast-furnace gas in, 316
 design of, 300
 draft conditions in, 303
 empirical data for, 185
 frictional resistance in, 307
 heating time, 311
 model of, 99
 test of, 313
Hot-blast temperature equalizers, 107
Hot gases, application of the laws of hydrostatics to, 11
 subdivision of current of, 88
Hydrostatic pressure in a balloon, 14
 in furnaces, 13
 in gas mains, 24
 in gas pipes, 15
 in metallurgical furnaces, 21
 in open-top chambers, chimneys, 25
Hydrostatics, application of the law of, to hot gases, 11
Industrial heating, classification of, by Damour, vii
Inverted stream, comparison to, 8

Inverted weir, formula for, 41, 152 gas velocity under, 52 Iron tube air or hot-blast heaters, 108	vertical, 126 Multiple-chamber kilns, 116 Natural gas, heat- capacity curve for, 383
Jet theory, application, of, to hot gases, 63	Oil, fuel, heat capacity and calorific intensity curve, 385- 387
Kennedy hot-blast stove, 102 Krupp armor-plate furnace, 134	
Lange, chimney- draft formulas, 184 Langmuir, convection according to, 269 Le Chatelier, Preface to the French Edition, xi Length of continuous heating fur- naces, 56 Location of waste- gas ports, 30	
Macco hot-blast stove, 102 Malleable iron, annealing furnace for, 116 Massick and Crook hot-blast stove, 100 Melting furnace for scrap, 60 Metallurgical furnaces, draft fallacy of, 16 hydrostatic pressure in, 21 Metric conversion table, 189 Metric formulas, conversion of, 192 Model of brick kiln, 3 continuous furnace, 47 Hot-blast stove, 99 open-hearth furnace, 37 Mojarow, friction of gases in brick flues, 168 Morgan continuous furnace, 49 Muffle furnace, 121 Petrogard Arsenal, 122, 171
